Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to an organic additive.

Group II, claim(s) 11-15, drawn to a concrete mix containing said organic additive and method of making.

The invention listed as Group I does not relate to a single general inventive concept under PCT Rule 13.1 because they lack the same or corresponding special technical features for the following reasons: Claim 1 is anticipated or obvious over EP 0850894 (an "X" reference from the international search report) . Because the additive of claim 1 would not appear to make a contribution over the prior art, unity of invention is lacking and restriction is appropriate.
